WEIRDO: *The Game of Creativity and Suspense!*

Designed for 2-4 players

(Note: There are two ways to play **WEIRDO!** Read on...)

INSTRUCTIONS #1:

* Determine the order in which players will take turns.

* The first player writes a wildly creative description in the first gray Description Box (which says, "Describe **WEIRDO's** head!"), thus providing direction for player #2 who tries to draw this head - and neck - in the topmost, white square. **WEIRDO** can be plant, animal, alien, human, or your Aunt Sadie. Use your imagination! (*Be sure to extend your lines down a bit into the following square to show the next player where to start drawing.*) Fold the paper down at the line.

* Player #2 then writes a glorious description of **WEIRDO's** torso and arms in the revealed Description Box. In the next white square, Player #3 draws the torso (to the waist) and arms, as per this description. No peeking at the previous player's drawing! Fold the paper down.

(continued...)

* This process of writing, drawing and folding continues until the hips, legs and feet are completed. Finally! Now you can unfold the paper to reveal your fantastic, collective **WEIRDO!**

* At the top of the page, jot down a brilliant name for your critter.

INSTRUCTIONS #2:

* Determine playing order.

* Players will use their own amazing ideas for the sections that they draw. (These ideas may be written in the Description Boxes, if the player chooses.)

*Player #1 draws a head and neck in the first, white box and folds the paper down at the line.

*Player #2 draws the torso (to waist) and arms in the next square. Fold.

*Player #3 draws the hips, upper legs and knees. Fold.

* Player #4 draws the calves and feet.

* Unfold. Name your creation and behold the wonder that is **WEIRDO!**
